Working Prototype Template - CMPS 115 – Software Methodology

The Working Prototype must contain the following elements:

- **Heading:** Document name ("Working Prototype Known Problems Report"), product name, team name, date.

- **List of functions not working correctly (can lose up to 20 points)** List all problems with your software that your team has identified. Include in the item entry the input/action that causes failure; location of fault (if known); possible action for removal of fault.

    You **will not lose points** for items on the list; you will lose points for failing to put items on the list if your TA or the prof finds a problem during the acceptance test.
